

SIP Cordless Phone System

SIP Communications

KX-TGP550/500

Panasonic ideas for life

The power of SIP. Easy expandability with DECT.

Introducing the KX-TGP500 series SIP Cordless Phone System—the small business communications solution. Never before has there been an easier, more convenient way to expand your SIP-based office phone system.

Flexible Configuration Options

Add handsets wherever you need them. All you need is an electrical outlet nearby.

3 Users: 3 DID

6 Station: 3 Line "Key" System

Each Base Station supports up to 8

The benefits of SIP are especially compelling in today's business environment where every dollar counts. The reduced hardware costs and simplicity of routing your company's calls over an internet connection can add up to huge savings on your monthly telephone bill. With the Panasonic KX-TGP500 series SIP Cordless Phone System, you can quickly and easily add up to 6 cordless handsets—each with their own number. All you need is a single internet connection and an electrical outlet near wherever you want to add a handset. And because it employs DECT technology, you'll enjoy a secure connection and crystal-clear sound.

13 Users: Main Number covered by 4 users plus 13 DID

phone numbers and 6 Cordless Handsets.
